SUMMARY

Computer Science graduate with practical experience in ERP systems and database development. Currently working as a Database Programmer through the Tamheer program, focusing on SQL development, database management, and system integration. Interested in building reliable data-driven business systems and continuously developing my technical skills in enterprise environments.

EDUCATION

Taif University, *Bachelor of Computer Science*

2014 – 2018

- GPA: 3.69 / 4.00
(with honors)

Saudi Digital Academy & Le Wagon,

Data Science Bootcamp

02/2025 – 05/2025

Tuwaiq Academy,

10/2025 – 12/2025

Data Science and AI bootcamp

PROFESSIONAL EXPERIENCE

MERP Systems – via Mosanada Business Services,

Database Programmer (Tamheer Program) 🔗

12/2025 – Present | Riyadh, Saudi Arabia

- Developed and maintained relational databases using SQL.
- Worked on ERP system modules with a focus on data accuracy and system integration.
- Assisted in database optimization, query performance, and reporting.
- Collaborated with technical teams to support business process automation.

PROJECTS

Mu'id, *Graduation Project – Tuwaiq Academy*

2025

AI-Powered Qudrat Exam Preparation Platform

- Developed an AI-powered educational platform to help high school students prepare for the Qudrat (General Aptitude) exam using Retrieval-Augmented Generation (RAG) to generate and explain exam questions in Arabic based on verified historical exam data spanning over 12 years.
- Technologies: Python, FastAPI, Large Language Models (LLMs), RAG, OCR, Databases

Beyond the Stars, *Graduation Project - SDA*

2025

- Analyzed over 17,000 tourist reviews using NLP techniques including topic modeling (LDA) and sentiment analysis (LSTM). Built an interactive dashboard with Streamlit to support tourism development aligned with Vision 2030.
- Technologies: Python, Pandas, Streamlit, LDA, LSTM

Interior Designers Directory,

2023

Android App Development Bootcamp Graduation Project

- Developed a mobile application that aggregates interior designers in a single platform, showcasing portfolios and enabling direct contact with designers.
- Technologies: Android Studio, Kotlin, XML, AndroidX

- Developed a desktop application for Al-Khurma University Library to manage book availability and locations using the Dewey Decimal Classification. Included a book request system to improve student access.
- Technologies: Python (PyCharm). PyQt (for GUI). SQLite (for local database). Object-Oriented Programming (OOP). Multi-user login (admin/librarian). Search and reporting system.

CERTIFICATIONS

- Professional Certificate in Data Science – Le Wagon
- Artificial Intelligence Program – SDA & NetSeed
- Computer Club Leadership & Organization – Taif University
- Data Analysis with Python and Pandas – Coursera
- MySQL Workbench - Coursera
- Relational Databases - Coursera

SKILLS

SQL, Database Design, ERP Systems, Data Analysis, Python, Pandas, NumPy, Machine Learning, Deep Learning, NLP, Data Visualization, Streamlit, Git, Docker, Google Cloud, FastAPI, Problem Solving, Communication, Leadership
